THE LUTHER GULICK CAMPS

South Casco, Maine

MARCH, 1937

MAINE JUNIOR GUIDES

Girls in the Campers' Unit will be able to win official awards from the State of Maine by fulfilling the requirements of the Junior Guides. Halsey has been sponsoring this organization for the past four years and finally a Bill has been presented to the Maine Legislature making the organization official. Those who are able to complete the rigid tests will be awarded certificates signed by the Governor of the State and the Commissioner of Inland Fisheries and Game. It is felt that this new state-wide organization will help to re-establish many of the real camping activities which have been neglected to some extent during the past ten or fifteen years.

CAMP PICTURES IN "VOGUE"

Vogue Magazine has recently bought four pictures of camp to be used in an article on camping which will appear in the March fifteenth issue. Two of the pictures were taken at Wohelo twenty-five years ago, and two were taken last summer.

The pictures are of bathing suits and dancing costumes. Old campers should particularly enjoy the line-up of peppy campers in bloomed bathing suits and ice-bag bathing caps, standing hand in hand along the front of the dock in 1911. The dancing picture is even more amazing, as, with bloomers flopping and pigtailed flying, the 1911 campers go through the intricacies of a folk dance.

Vogue will be unable to use the camp name, but you will certainly recognize yourselves!

SEBAGO WOHELO NEWS

Cecil Hodgman's news is more exciting than anyone else's this time. She and Robin announced their engagement in November—just too late for the last news letter. They announced it at a party for about forty people at Thistle's house, and they had a thistle, a robin, and a diamond ring on the napkins. Thistle said that not many people were surprised, so evidently the Woheloites have spread the rumor. They plan to be married in August, and spend their honeymoon at Bart and Lee's cabin in Bridgton, so we can see them often, we hope. Robin lives in East Orange, and works for the Otis Elevator Company. His official name, in case you've forgotten, is William Robinson Clapp.

Mary Ann Brereton has written some of the music for the Freshman Show at Bryn Mawr College.

Ming's mail all seems to go to her aunt, for she never gets any of the news letters. Moral: Never name your child for anyone.

June Robinson had the cutest dachshund (the WOHELO BIRD was late going to press while we looked up the spelling on that), and she had just taught it to sit up and roll over when it got sick and died. June has taken up fancy skating since there isn't any snow at Emma Willard.

Jean McGay promised to visit Proctor after Christmas, but hasn't arrived yet.

Louise Valentine played hockey at school until Thanksgiving. She was in a Latin Play, and is the literary editor of her class magazine.

Chottie Robinson made her own Christmas card this year, with a grand sailboat on it. She was in a play at Emma Willard recently—took the part of a rough old duke who shook his fist at everybody. We hope it doesn't become a habit.

NEW CANOES FOR CAMP

The camps have just purchased ten new canoes from the Old Town Canoe Company. Six of them are for the Campers' Unit at Sebago Wohelo and are being made to order with special specifications to meet the needs of this new unit. Hop Littell's concert group has had a very enthusiastic reception from Taunton, Newton and Keene. Hop says that Perky, Rosamond and Eleanor Minot are showing the results of last summer's work. Eleanor is taking private lessons with Marge and one class a week. Marge has a class of Wellesley girls, and Chambie is among them. She says that Ernie Pear appeared at the class one day and they had a very noisy reunion, with Ernie doing a few cavortings in the hall which he thought went unnoticed. We hastily checked up with Chambie on that and found that Ernie hasn't been seen since—probably laid up with stiff muscles.
