THE LUTHER GULICK CAMPS

South Casco, Maine

DECEMBER, 1936

## FRANCES GULICK DIES SUDDENLY IN NEW YORK

Frances Jewett Gulick died on Tuesday, November 24th, in the Memorial Hospital in New York City.

"Franta" was known to all of the old campers and their parents as well. She was born in Springfield, Massachusetts, on April 6, 1891. During her life she was in camp every summer from its beginning in 1907 until the World War, and after the war until she took over Migis Lodge in 1923. She directed Little Wohelo when it was in its infancy, and had charge of the camp farm for one year. Franta was active in the early days of the Camp Fire Girls and conducted the first training school for Camp Fire Guardians. She did social service work for a number of years in New York City and for one year in the mining camps of Alaska. During the World War she was Overseas for two years, attached principally to the First Division. Over there she ran a Canteen during the day and delivered newspapers to the first-line trenches at night. She was cited several times for bravery. One of her citations read: "Miss Frances Gulick, attached to the First United States Engineers, has displayed the finest qualities of energy, courage, and devotion in the discharge of her duties throughout the war, notably during the aerial bombardment at Bernaise, May 30, 1918, where, in spite of many casualties in the town, she remained at her post. Miss Gulick, with total disregard for her own personal safety, continued to operate her Canteen, although the town was being shelled, and the Canteen, itself, was struck."

In 1923, feeling that the benefits of camp life should not be limited to children under eighteen, Franta took over the National Camps and Hotel, in South Casco, remodelled it, renamed it "Migis Lodge" and opened it to the parents and friends of camp children.

Her funeral was held at the home of her sister, Louise Gulick Robinson, 370 Bedford Road, Pleasantville, N. Y., at eleven-thirty, on the morning of Thursday, November 26, 1936.

Frances Gulick will be missed by all the campers who were at camp from 1907 through 1936, as well as by the numerous parents who, first stopping at "Migis" when they had children at camp, have continued to come back every summer.

## HALSEY RE-ELECTED PRESIDENT NEW ENGLAND ASS'N CAMP DIRECTORS

Starting with this fall Halsey is serving his third winter as President of the New England Association of Camp Directors. There is a revival of interest in the Association at the present time due to the gift from Walter Chrysler of one hundred thousand dollars, which will be used for research work in the camping field.

Besides being President of the New England group, Halsey is also on the National Executive Committee and a member of the Committee for the National Convention to be held in Detroit this winter.

## NEW UNITS AT SEBAGO WOHELO

Since the inauguration of the new Unit plan there has been a slight tendency to neglect some of the real camping activities. For those who really want to camp and lead the rugged existence in primitive style, the camp is offering a unit which will devote most of its time to outdoor cooking, trips, fishing, making of primitive shelters, riflery, and the other activities which have to do with real camping. The Unit is to be led by Mr. and Mrs. A. Barr Sniveley, Jr., who have had years of camping experience. They will go on all trips away from camp and plan the home program for their Unit. Mr. Sniveley will be known as "Whoops," a name familiar to all Princetonnians as he was elected Captain of the 1923 championship football team.

Another new group is the Tutoring Unit. For years the camps have turned girls away because they needed to make up lost work during the summer. It was felt that girls

## BETTY BULL FREEMAN JOINS CAMP STAFF

There is probably no camp alumna who is known to a larger number than Betty Bull Freeman. She started coming to camp back in the time when the girls wore pigtailed and stayed through the bobbed hair and into the permanent wave period. And now she has two daughters who are following in her footsteps—but not with pigtailed.

Betty, as all alumnae would guess, has taken the education of her children seriously. Around Boston she is to be found at all the important Parent-Teachers' Meetings of The Private Schools Ass'n and has been noticed by our spies investigating trends in modern education. Plans for her children, of course, included camp, but those connected with Wohelo wondered what camp it would be. Although Betty could always be counted as one of the most loyal Woheloites, it was well known that her daughters' camp life would not be swayed by her own personal camp loyalty. As with school, she investigated camps, went to their winter gatherings and spent a number of weeks going from camp to camp looking them over from every angle.

## TIMANOUS NEWS

Bennie Benello spent September in Nantucket, swimming, sailing and fishing. He says that he doesn't like ocean swimming as well as lake swimming. Bennie sailed for Poland October 5th and expects to return to camp next summer.

Art Bosworth is at Phillips Exeter again. Dave Brown is in the eighth grade this winter. He plans to take a trip with his parents later.

Frank Dain is making ash trays out of aluminum disks for Christmas presents; something he learned to do at camp.

Bud Dana is a freshman at Harvard and attended the Tercentenary Celebration in Cambridge this fall.

WINTER ADDRESS  
Mr. and Mrs. J. Halsey Gulick  
Proctor Academy  
Andover, New Hampshire

## SKIING REUNION AT PROCTOR

Mark down the dates of February 20th, 21st, and 22nd, for the Second Annual Skiing Week-end at Proctor Academy. This includes Timanous, Sebago Wohelo, and Little Wohelo.

This year an entire dormitory has been put in readiness and is open for outside groups who will join the school on week-ends during the winter. Also, the boys have completed a roomy log cabin on the side of Ragged Mountain for those who are hardy enough to make the ascent on skis or snowshoes. So many of the girls from Little Wohelo are changing to Sebago Wohelo next summer that we have decided to have them both at the school on the same week-end. It will give the girls a chance to get acquainted before the summer starts. Also, many of the girls had brothers at Timanous last summer, so we are making it a family party and having all three camps together. The boys, of course, will live in the two boys' dormitories and the girls will have the whole of Mary Lowell House.

As last year, there will be a dance on Saturday night and there will be the usual skiing events with prizes for the girls, as well as the special events for the boys. If you are a beginner, come along and join the beginners' group. A number of the campers made their first start at skiing last year and it was surprising to see the progress made in just two days. If you don't want to ski, come anyway, but you'll have far more fun if you beg, borrow, or steal a pair of skis. The snow is usually a few feet deep by February, so the unplanned stops are soft!

## HALSEY VACATIONING AT SOUTH CASCO

As this letter goes to press, Halsey has deserted Andover, New Hampshire, for the Maine Woods. The only letter so far says that he got three duck, a rabbit, and one partridge on the first day, but he hopes to get a deer before his vacation is over. Possibly the old campers do not know that the regions in the immediate vicinity of South Casco abound in game. More deer were shot in this section than in any other county of Maine last year. During the summer months the deer generally stay back in the woods, although a large bull moose walked right down into the girls' camp last summer. It probably couldn't resist the temptation to see what was going on.

EXTRA! Halsey has just arrived in Andover with a 120-pound deer.

## BOB AND BEEBE ACCEPT NEW POSITION

Bob Boyden has just accepted a position as executive in the Career Counseling Center of the Via Nova Educational Institute at 117 Newbury Street, Boston. He is to be assisted by Beebe, who will act as the Field Representative, working primarily with women's clubs. Career counseling is one of the most modern phases in education and this new organization is being watched by educators with keen interest. As we go to the doctor in regard to our health and the dentist for our teeth, we should go to a career counselor to find our aptitudes for vocations. Many heart-breaking mistakes in selecting a life career

She has painted in Colorado, on Cape Cod, in Eastern Massachu-

setts, in France and England; but for the past few years has given her time and most serious attention to Northern Maine in the vicinity of Kingfield. Her rich, bright, warm, sunny pictures especially emphasize, therefore, the summer hills, the upland farms and the glories of autumn woods."

I thought, 'I wonder where that is?', then I saw five war canoes lined up on a beach, and I thought, 'What camp has war canoes like those!' And then a flash of the coastline made me shout, 'Oh, Peggy! Look! Look!'"

The new unit plan, however, makes a Tutoring Unit possible where two hours of each morning will be devoted to conscientious work. ## IN MEMORIAM

Margaret Metzger (Mrs. John Vandercook) died on April 5, 1936, in Kingston, Ontario. Margaret and her twin sister, Ruth, were at camp from 1914 through 1916 and were two of the best campers Wohelo has ever had. *The Wellesley Magazine*, in a memorial article about Margaret, praises her sculpture and then says: "A further aspect of her appears in her husband's books. She was his partner in all their dangerous, exhilarating trips. Her gift for simple friendliness was invaluable in the long treks through strange and savage countries. She was practical in making arrangements, serene in the face of difficulties, amused where a lesser person would have felt justifiable irritation, and always keenly alive to the beauty of art and tradition which they found in their travels. *Tom Tom*, *Black Majesty*, *The Fool's Parade*, and the rest, are almost as much Margaret's books as her husband's." These same qualities were the ones which at camp made her a great camper.

Tommy Ragle is at Shady Hill School looking forward to spring when he can go out for baseball.

Alan Rath is still working hard at William C. Rath Co., Inc.

Cubbie Sniveley is in the fourth grade at school. He went to the first Williams football game with Spec Green. Spec's brother plays for Williams and Cubbie's father is the coach, so they must have been two lusty rooters.

Super is at the University of Vermont again and wrote he planned to enter the "frostbite" regatta on Lake Champlain. We've had no further reports, though.

Bob Walker is at Taft School again.

Bill Curtiss saw some of the tennis matches at Forest Hills before leaving for Williams where he is a freshman this year.
